

TOTAL PRODUCTIVE MAINTENANCE

Zero Breakdown
Zero Defect
Zero Accident

What does TPM mean to you?

TPM is a continuous improvement framework that involves all employees with the aim of maximizing value-added and eliminating losses.

TRAINING OBJECTIVE

Provide **solid comprehension** of TPM, the goals, and approach

Deep understanding of **TPM Pillars**

Preparing the infrastructure for **TPM deployment**

Develop a **team-based approach** for continuous OEE improvement initiative

KEY CONTENTS

- The main TPM principles (concept of zero, employee Involvement, and continuous improvement)
- How to improve manufacturing efficiency
- Preparing the strong infrastructure for TPM deployment in an organization
- The Element of TPM: Focused Improvement, Planned Maintenance, Equipment Effectiveness Improvement, Early Equipment Management, Training & TPM Organization
- How to calculate Overall Equipment Effectiveness and integrate this as part of an overall TPM strategy
- The 8 pillars of TPM

TRAINING AGENDA

DAY 1

- Overview and definition of TPM
- Benefit of TPM
- 8 Pillars of TPM
- OEE Metric (workshop)
- Understanding MTTR and MTBF
- Implementing Autonomous Maintenance System (simulation)

DAY 2

- Tagging System
- Planned Maintenance Workshop
- Spare Part Management
- Conducting Focused Improvement
- Sustaining TPM Implementation

WHO SHOULD ATTEND

- Production Manager, Maintenance Manager, Continuous Improvement Leaders
- Engineers, Planners, Technician, Supervisor
- Anyone with Any Level who is required to understand and implement TPM in an organization

PARTICIPANT BENEFITS

- Training guided live by SSCX Consultant
- Join the training from anywhere
- Training is interactive, practical, and applicable
- Training certificate (e-certificate) from SSCX
- Digital training module (pdf)
